

**Desiree Bobino
Thomas, MD**
Neurology

Dear Patient,

I'm writing to let you know that on Tuesday, August 22, I will be relocating my practice to Kelsey-Seybold's Fort Bend Medical and Diagnostic Center in Sugar Land and Katy Clinic off the Westpark Tollway in Richmond — and will no longer see patients at our Berthelsen Main Campus.

Continuing your medical care with me is important. I hope to have the opportunity to continue your care at our Fort Bend or Katy Clinic. Both locations have complimentary surface-level parking for your convenience. I understand you may wish to continue your medical care at our Berthelsen Main Campus. If so, I encourage you to choose one of my outstanding Neurology colleagues there. I've worked alongside these specialists and have immense trust in the care they will provide you.

I have included brief biographies on neurologists welcoming new patients at our Main Campus. You can also search and view any Kelsey-Seybold provider's online profile at **kelsey-seybold.com/bios**. You can search for a physician by name, clinic location, medical specialty, and languages spoken.

For prescription refills before your next appointment, ask your pharmacist to call the number on your prescription label, or visit **kelsey-seybold.com/prescriptionrefills**.

It has been a privilege caring for your health, and I look forward to continuing your medical care at our Fort Bend Medical and Diagnostic Center and Katy Clinic.

Sincerely,

Desiree Bobino Thomas, MD
