# Kelsey-Seybold offers nationally accredited cancer treatment – along with convenience and a personal touch.

As a nationally accredited cancer program, the Kelsey-Seybold Cancer Center delivers care according to best practices and the nation's rapidly advancing treatment guidelines. This means our medical professionals follow the same nationally established treatment protocols for common cancers as do all other nationally accredited cancer centers.

With state-of-the-art radiation therapy at the Berthelsen Main Campus and infusion centers at Spring Medical and Diagnostic Center and Berthelsen Main Campus, our patients can see their doctors and get the treatment they need in one location. This includes radiation preparation and treatment, chemotherapy, biopsies, scans, and other services.

Learn more at [kelsey-seybold.com/CancerCenter](https://kelsey-seybold.com/CancerCenter).

The Kelsey-Seybold Cancer Center offers Varian EDGE technology, which safely delivers precise radiation treatment with incredible control and coordination. The treatment couch, or bed, moves to reposition the patient as needed. Varian EDGE represents a major leap forward in the speed, accuracy, and safety of radiation therapy.

The **Charter Kelsey-Seybold Plan** gives our patients access to the board-certified Kelsey-Seybold Cancer Center team within days of receiving a diagnosis. And should you receive a rare or advanced cancer diagnosis, we will coordinate your care with the appropriate cancer center or treatment program that offers the best outcomes for your personal situation. This includes CHI St. Luke's Health.
