

Your

Kelsey-Seybold Network in Action

Here is an example of coordinated care in action:

1. Members select a Kelsey-Seybold primary care physician (PCP), but can see **any** Kelsey-Seybold physician or PCP at **any** location.
2. Members have access to most of the premier hospitals and healthcare facilities available in the UnitedHealthcare Choice Plus network.
3. The Kelsey-Seybold **electronic medical record** allows all Kelsey-Seybold primary care physicians and specialists to coordinate care with a full picture of a patient's recent test results, best practice alerts and compliance monitoring. This helps to avoid unnecessary and expensive duplicate testing and improves member health.
